

### Standard Features:

- Two fully-automatic sheet feeders
- One automatic insert/BRE feeder
- AutoSet™ one-touch setup
- Clamshell design for easy access to paper path
- Fully automatic adjustments
- Nine programmable fold applications
- User-friendly display for easy setup
- Seal and non-seal capabilities
- Two counters: One resettable for addition and batch counting and one non-resettable
- Four adjustable insert fingers
- Double document detection
- Fold types: C, V and Double Parallel

### Abilities:

- Folds and/or inserts sheets, business reply envelopes and cards automatically in almost any combination
- Folding only without inserting
- Daily Mail mode for inserting stapled or unstapled sets - Fold and insert up to five sheets of paper

### Options:

- Short Feed Trays
- Cabinet Stand
- 402 Series Jogger: Reduces static electricity from forms and aligns them for proper feeding

### The Office Mailing Solution

The FD 6150 brings advanced folding & inserting technology and flexibility to the office environment. The unique AutoSet™ feature allows for one-touch setup of new jobs by automatically measuring paper lengths, envelope sizes and fold lengths. Recurring and frequent jobs run in AutoSet™ can also be stored as a programmed job setting for hassle-free setup and operation.

The FD 6150 is configured with 2 sheet feeders and 1 insert feeder to process a variety of mailing applications. Up to 9 jobs can be programmed so that recurring and frequent jobs can be processed with the push of a button.

The FD 6150 Inserter offers the power and reliability of larger machines with the ease of operation expected and required for the office environment.

## Flexible

The FD 6150 processes a variety of documents up to 14" long, including checks, invoices, newsletters and reply envelopes that can be inserted in almost any combination. The daily mail feature allows for various mailings to be processed in stapled and non-stapled sets.

## Powerful & Secure

The FD 6150 processes at a rate of up to 1,350 pieces per hour and can handle up to 325 sheets in each feeder. Feeders can be refilled on-the-fly allowing for continuous operation. The cascade mode maximizes production by filling both feeders with the same documents. When one feeder empties the other automatically starts feeding. This feature allows for a total input capacity of up to 650 sheets. The FD 6150 also features double document detectors located at each feed station to ensure document integrity.

## Easy to Operate

The AutoSet™ feature automatically detects and sets paper length, fold type, envelope size, fold length and double document detection. Simply load the documents into the feed hoppers and go. The FD 6150 also includes 9 programmable fold settings for recurring or frequently processed applications. The drop-in feed system and easy-access paper paths increase efficiency and maximize output.

## Specifications

Feed Hoppers:	Up to 325 sheets or approx. 45 BRE's
Speed:	Up to 1,350 pieces per hour
Duty Cycle:	Up to 5,000 pieces per month
Paper Size*:	Sheet Feeder: 3.5" - 14" L x 5.1" - 9" W Insert/BRE Feeder: 3.5" - 6" L x 5.1" - 9" W
Envelope Size*:	5.5" - 9.5" W x 3.5" - 6.38" H
Dimensions:	53" L x 26" H x 16.5" D
Weight:	Approx. 200 lbs
Voltage:	100 - 120 Volts AC 50/60Hz
Safety Certifications:	UL approved

\* Paper & envelope specifications may vary. All media must be tested.
