A COMPLETE, LOW-COST USPS® PC DESKTOP MAILROOM SOLUTION!

With **postalmanager™**, you can automatically generate reports after weighing and processing mail. Simply place the mail piece directly into the feeder of the FP digital postage system – you won't even have to glance at the user interface screen. Your mail is processed and tracked and saved so all the details are ready for on-the-spot reporting.

KEY ADVANTAGES

TOOLBARS AND LARGE, EASY-TO-USE ICONS

Helps you find what you're looking for on the control panel quickly. Add the optional 17" LCD Touch Screen Monitor application for even faster navigation.

MAIL INFORMATION

Easily modifies package shipping characteristics or destination ZIP Code. Records internal comments for reporting.

DETAILED ACCOUNT INFORMATION

Keeps you informed (up to 3 levels) on which account is assigned to what package. This is especially beneficial to companies - such as law firms that invoice by separating between Client, Attorney, and Matter - that require detailed, multi-level accounting and reporting.

"FREQUENT TASKS"

Saves your most frequently used mail jobs to increase productivity by avoiding repetitive setup processes.

EXTRA SERVICES

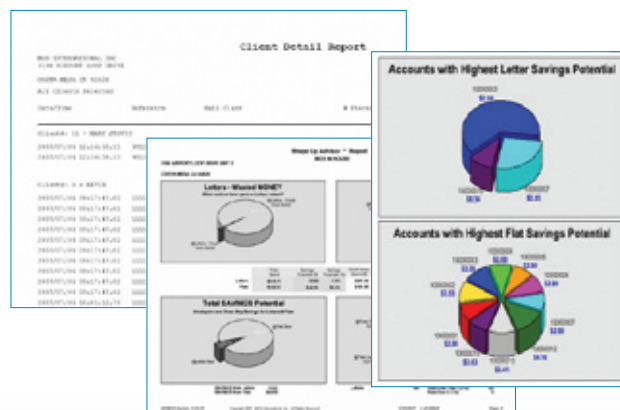

Itemizes any handling charges and USPS special services, such as Delivery Confirmation™ and Signature Confirmation™, so you know what is being added to a pending shipment.

ADVANCED REPORTING

Creates custom reports tailored to your needs — just click on the toolbar to select and run a report query by account(s) or by USPS transaction type.

AVAILABLE OPTIONS

- Eltron Label Printing
- 17" LCD Touch Screen Monitor
